## Marble Institute Accredited Natural Stone Fabricator

Stone Masters Inc is proud to announce the completion of the Marble Institute of America's Natural Stone Fabricator Accreditation. According to the Marble Institute of America (MIA) "To earn MIA Accreditation, a company must complete an intensive, rigorous process that includes documentation of its business and employment practices, letters of recommendation, a written examination and site visits to the facility and completed jobs. Companies that achieve MIA Accreditation exemplify best practices in these areas:

- Physical facilities and equipment
- Business and trade practices
- Technical knowledge and expertise
- Quality control
- Safety
- Finance
- Ethics
- Customer service and education
- Advertising and promotion
- Employee policies including training, discipline and termination

When you work with a natural stone fabricator or commercial contractor displaying the Accreditation seal, you can be confident that your project will be completed in a professional manner, that questions or concerns will be promptly addressed and that your satisfaction will be the company's priority. The MIA Accreditation seal means peace of mind, from the selection of the slab through fabrication, installation and beyond."

This accreditation also require we receive our OSHA certification and pass a Dimensional Stone Exam. Currently this accreditation has been awarded to less than 80 fabricators across the United States. In preparation for this accreditation Ann Marie served as our qualifying agent and successfully passed the Dimensional Stone Accreditation Test, a feat completed by less than 5 women ever in the industry.

# NOW OFFERING CEU

## CLASSES AND CREDITS!

As a long time members of the Marble Institute of America (MIA) we are proud to announce that both Ann Marie and Ashley DiTomaso have gone through the MIA's accreditation process of becoming certified CEU speakers. They are now able to host and guest speak at industry events. Participants of any of their 13 courses will receive a certificate of their CEU completion and participants will then have their CEU credits file through the MIA.

# THE "BEAST" IS NEW AND IMPROVED

Meet "The Beast", 22,500 LB lifting capacity for unloading container full of stone slabs. Its amazing the effect a fresh coat of paint and tune up can have!
